ABSTRACT

An inventory of academic degree programs in South Carolina is intended as an aid to institutional and to statewide planning for postsecondary education. In Part I, programs are listed by category (50 subject areas), using the National Center for Education Statistics' Classification of Instructional Programs. The following degree programs are covered: agricultural education; architectural education; area studies; ethnic studies; business education; administrator education; marketing; communications; computer science education; teacher education; engineering education; language instruction; allied health occupations education; home economics; legal education (professions); industrial arts; liberal arts; library science; biological sciences; science education; mathematics education; comparative education; recreation; philosophy; theology; physical sciences; psychology; public affairs education; social sciences; vocational education; building trades; visual arts; theater arts. In Part II, listings are by institution (public senior colleges and universities, private senior colleges and universities, two-year campuses of the University of South Carolina, private two-year colleges, and technical colleges). Program levels are categorized into six groups: diplomas or certificates; associate degrees; baccalaureate degrees; masters degrees; education specialist degrees or advanced certificates in education; and doctoral degrees. AN INVENTORY OF ACADEMIC DEGREE PROGRAMS IN SOUTH CAROLINA

Introduction

This inventory of academic degree programs has been compiled by the South Carolina Commission on Higher Education primarily as an aid to institutional and to statewide planning for postsecondary education. The information presented will also be of value to those who wish to know at which institutions a given program is offered within the State. The inventory is based on information furnished to the Commission by each institution and is current as of the fall academic term, 1987.

The inventory is divided into two parts. In Part I are programs listed by category. In Part II are listed public and private non-profit institutions and the degree programs offered by each.

Within the inventory, abbreviations used to categorize the level or levels of each program are defined as follows:

Abbreviation

C . . . Diplomas or Certificates

A . . . Associate degrees (such as Associate in Arts, Associate in Science, Associate in Business)

B . . . Baccalaureate degrees (such as Bachelor of Arts or Bachelor of Science)

M . . . Masters degrees (such as Master of Science or Master of Education)

S . . . Education Specialist Degrees or Advanced Certificates in Education

D . . . Doctoral degrees (such as Doctor of Philosophy or Doctor of Education; also includes some first professional degrees such as Doctor of Medicine or Doctor of Law)

For convenience, programs are arranged according to a standard classification (A Classification of Instructional Programs, National Center for Education Statistics, February, 1981). All institutions offering one or more programs identified with a given subfield are listed immediately following the entry for that subfield in Part I. State-supported institutions are included in the first group under each subfield, followed by private, or independent, colleges in the second group under each subfield.

In most cases, the title of the program in the Inventory is that preferred by the institution. In a few cases, where programs similar in nature and objectives are offered with different preferred titles, these have been grouped for ease of identification.
